

Florent DUCHAINE

Senior Researcher in Fluid Dynamics
CERFACS, France

Research interests :

- Computational Fluid Dynamics (CFD)
- Conjugate Heat Transfer (CHT)
- Combustion instabilities
- Code coupling
- Massively parallel computations
- Large Eddy Simulations (LES)
- Optimization

Phone num. : 06 83 81 97 51

E-mail : Florent.Duchaine@cerfacs.fr

Url : <http://www.cerfacs.fr/~duchaine>

CERFACS

42 avenue Gaspard Coriolis
31 057 Toulouse Cedex 01. France.

Nationality : French

39 years old

Professional Background

- 2010 – ... **Senior Researcher at CERFACS**
- *Multi-physic and multi-component simulations*
 - Conjugate heat transfer in gas turbine components with LES
 - LES of turbomachinery stages
 - LES of combustion chamber/turbine interactions
 - *Software development*
 - TurboAVBP : extension of AVBP solver for turbomachinery simulations
 - OpenPALM coupler : development, installation and test on massively parallel architectures
 - Thermal solver AVTP and radiation solver PRISMMA
 - Identification of coupling strategies for computations on massively parallel architectures
 - *Training and formation of Ph.D. students and post-doc*
 - *Setting up, coordination and execution of PRACE projects*
 - *Setting up, coordination and execution of European and national projects*
- 2009 – 2010 **Postdoctoral fellow at Institut de Mécanique des Fluides de Toulouse in PSC Team**
Advisor : Dr. Laurent Selle, IMFT (French project ANR SIGLE)
→ *Eulerian models for turbulent spray combustion with polydispersity* : Investigations in droplets coalescence in a LES framework
→ *Numerical investigations of combustor wall temperature effect on Flame Describing Functions (FDFs)* :
 - Thermal coupling of a solid conduction solver and a reactive LES fluid code,
 - Acoustic forcing of a laminar flame and determination of corresponding FDFs,
 - Comparisons with experimental results.

2007 – 2009	Postdoctoral fellow at CERFACS in CFD-Combustion group Advisor : Prof. Thierry Poinsot, IMFT → <i>Numerical investigations of conjugate heat transfer in gas turbines :</i> <ul style="list-style-type: none">• Thermal coupling of a solid conduction solver and a LES fluid code,• Researches in coupling strategies,• Applications to gas turbine components. → <i>Collaboration with Airbus on Large Eddy Simulations for heat transfer problems</i> <ul style="list-style-type: none">• Assessment of LES in academic flows with experimental and RANS comparisons,• CHT in an experimental model of an aero engine nacelle cooling.
2006	Automatization of a multi-physic framework for the prediction of combustion chamber walls temperature. SNECMA Moteur (France) Iterative loop based on 3D solvers : reactive multiphase flows / radiative / conduction in solid media.
2004 – 2007	Ph.D. at CERFACS (preceded by a 7-month training period) Advisors : Prof. Thierry Poinsot, Institut de Mécanique des Fluides de Toulouse and Dr. L. Gicquel, CERFACS Ph.D. funded by the European project INTELLECT-DM (contract of the FP6) → <i>Multi-objective Shape Optimization on Parallel Architectures with Metamodels and Couplers. Application to Aeronautical Combustion Chambers.</i> Development of a fully parallel optimization tool based on a CFD reactive RANS code : <ul style="list-style-type: none">• Researches and developments in design optimization and code coupling applied to CFD,• Implementation of the design tool on massively parallel architectures,• Shape optimization of a combustion chamber.
2004 – 2005	Teaching in numerical fluid dynamics for Undergraduate students for Masters Degree in energetics engineering. ENSEEIHT (France)
2003	Research training (6 months) at Institut de Mécanique des Fluides et des Solides de Strasbourg Advisor : Prof. Pierre Comte, IMFS Strasbourg → <i>Toward noise prediction of 3D turbulent jets.</i> <ul style="list-style-type: none">• Implementation and validation of characteristic boundary conditions in a LES solver,• Simulations of 3D compressible round jets.

Education

2017	Habilitation à Diriger des Recherches <i>Institut National Polytechnique de Toulouse (France)</i>
2004 – 2007	Ph.D. in Fluid Dynamics <i>Institut National Polytechnique de Toulouse (France)</i>
2003 – 2004	Mastère Spécialisé (label CGE) in Numerical Fluid Dynamics <i>Ecole Nationale Supérieure d'Electrotechnique, d'Électronique, d'Informatique, d'Hydraulique et des Télécommunications (ENSEEIHT) de Toulouse (France)</i>

- 2002 – 2003 **Masters of Science in Mechanics and Energetics**
Institut National Polytechnique de Lorraine (France)
- 1998 – 2003 **Masters Degree in Engineering : Fluid Mechanics and Thermals**
Ecole Supérieure des Sciences et Technologies de l'Ingénieur de Nancy (ESSTIN - France)

Languages and Computer skills

Languages	<i>French</i> : Native <i>English</i> : Fluent conversational and written
Computer	<i>Massively parallel computations</i> : C3I label from GENCI (http://c3i.genci.fr) <i>Programming</i> : Fortran 90, MPI-1, HTML

Activities and Interests

Reviewer	<i>Scientific Journals</i> : Combustion and Flame, International Journal of Numerical Methods in Fluids, Heat and Mass Transfer, Applied Thermal Engineering, Aerospace Science and Technology, Computer and fluids, ASME <i>French funding agency</i> : Agence Nationale pour la Recherche (ANR) - evaluation of research projects
Capoeira	President of the association <i>Capoeiragem</i> that promotes Brazilian arts (Toulouse) Graded student entitled to give lessons

Awards

2017	Elected ASME Member 2017 / 2018
2015	Teratech/Usine Digitale - Meilleure collaboration dans la simulation numérique
2013	Most Innovative Industrial HPC End-User Application in Europe

Publications (more details on <http://www.cerfacs.fr/~duchaine/>)

Papers in refereed journals
